Career Objective

Motivated and solution-driven Electronics and Communication Engineering student from NIT Jamshedpur with strong programming fundamentals, hardware-software integration skills, and an entrepreneurial mindset. Eager to contribute to Flipkart GRID 7.0 by solving real-world challenges using tech, logic, and creativity.

Academic Details

- B.Tech in Electronics and Communication Engineering – NIT Jamshedpur (2023–2027), CGPA: 7.81
- 12th (CBSE) – BKSC city collage, Year: 2024, Percentage: 82.4%
- 10th (CBSE) – St Mary's English School, Year: 2022, Percentage: 88.6%

Technical Skills

- Programming Languages: C++, HTML, CSS, JavaScript.
- Domains: Competitive Programming, Embedded Systems, Web Development

Projects

- Emergency Medical Supply Drone (Ideation Stage): Aimed to deliver emergency medicines in remote locations using GPS-enabled drones. Focus: Efficient routing, real-time tracking, and payload optimization.
- IoT-based Temperature and Humidity Monitor: Built using ESP8266 microcontroller with DHT11 sensor. Data sent to Blynk App in real time. Learned about sensor calibration and cloud interfacing.
- RFID-based Inventory Management System (In Progress): Logs in/out time of each item using RFID tags. Focuses on real-time item tracking for small-scale warehouses.

Positions of Responsibility

- Public Relations Coordinator, Ojass 2025 – NIT Jamshedpur
- Class Representative, ECE 2028 Batch – NIT Jamshedpur
- Alumni Relations Coordinator – Coordinated alumni-student interactions

Achievements

- Selected PR Coordinator for Ojass'25, the techno-management fest of NIT Jamshedpur
- Conceptualized 'Collage Thela', a food cart startup idea for colleges
- Regular competitive programming participant with strong logic-building skills

Non-Academic Interests

- Public Speaking and Debating (Literary Society Aspirant)
- Entrepreneurship and Networking
- Drone Technology and Robotics
